

CORPORATE PROFILE

Founded in 1999, Maryn Consulting, Inc. is a SBA 8(a) and HUBZone certified small vendor that provides Policy Research and Information Management solutions and services. Over the past nine years, Maryn has successfully worked with clients across the federal, state, and local government landscape. In addition, Maryn has provided critical management consulting services to a number of non-profit organizations.

The Maryn team is dedicated to our clients' continued success. As such, Maryn approaches each project with a unique and fresh perspective. Understanding that each client is different, Maryn works diligently to individually tailor a proposed solution to best fit the needs and requirements of each client, while simultaneously applying industry best practices to ensure the highest quality deliverables.

Maryn consultants have extensive experience in the areas of juvenile and criminal justice policy, traffic and transportation safety issues, human services policies, and public sector services management issues. To support the work performed in these areas, our consultants have developed specialized skills in policy and programmatic analysis, organizational development, program development, strategic planning, staff development and training, information management, and information technology.

OUR MISSION

"Maryn is devoted to providing innovative and reliable management consulting and technology solutions to ensure our clients' continued success."

KEY PROGRAM AREAS

TRANSPORTATION SAFETY

Through research projects with the federal government, Maryn Consulting is committed to improving highway and vehicle safety. Over the last several years, Maryn has been involved with a number of research and support related to highway and vehicle safety. Through these projects, Maryn has developed a strong understanding of a number of transportation safety issues. Maryn has conducted in-depth analysis of DUI offender behaviors, studied successful community-based DUI programs, evaluated vehicular pursuit termination technologies available to law enforcement, analyzed trends in automobile theft rates, explored best practices in EMS child transport, and researched State laws related to traffic safety.

JUSTICE

Maryn has expertise in a wide array of justice related areas. Maryn provides high quality services involving criminal and juvenile justice research studies, systems analyses, policy and procedure development, data collection and analysis, program assessments, case studies, training and technical assistance, and program development and implementation for local, state, federal and private sector clients. Maryn's justice related areas of expertise include law enforcement, juvenile justice, prisoner re-entry, corrections, courts, treatment and rehabilitative services, and community-based services.

HUMAN SERVICES

Maryn has a strong understanding of human services issues, including community development, social services and child welfare. During the past five years Maryn staff have been involved in a number of human services projects relating to youth and families, as well as substance abuse programming and community outreach. Our consultants have worked with a local human services department to improve the services provided by their community outreach office, studied local substance abuse programs across the country, supported information technology services for a state child welfare agency, and examined safe child transport issues.

MARYN CORE CAPABILITIES

PROJECT MANAGEMENT

Maryn's project management approach ensures that scheduling, implementation, and execution of projects are carefully monitored and reported on a continuous basis. Our Project Management Methodology consists of project management strategies, control mechanisms, quality assurance protocols, risk mitigation plans and more. Our proven, customized approach is designed to produce predictable and reliable outcomes—successful technical delivery of quality deliverables on time and within budget.

PROGRAM ASSESSMENTS

Maryn has demonstrated experience leading high quality program assessments of local, state and non-profit agency operational programs. Assessments cover programs varying in nature, size, maturity, and capacity. Our approach is multi-faceted and initiated in collaboration with the client to identify the relevant questions and ensure that the desired information is obtained. Maryn delivers high value reports that provide a thorough assessment of the program.

POLICY ANALYSIS

Maryn has demonstrated experience conducting policy analysis projects at the local, state and national level. Maryn utilizes established research methodologies and academic standards to conduct research that examines public policies and the impacts public policies and practices have on government and private sector programs, activities and behaviors. Our policy research is conducted to provide information to decision-makers as they develop, implement or evaluate policies and programming.

STATISTICAL ANALYSIS

Maryn has the capabilities to conduct both large and small scale data analysis projects. Through the use of advanced statistical modeling techniques Maryn consultants are able to properly analyze results and develop both sound and insightful conclusions, findings, and recommendations.

CASE MANAGEMENT SYSTEMS

Maryn has demonstrated experienced leading the development and enhancement of case management systems for local and state human service agencies. Expertise includes the ability to standardize and automate individual consumer information, as well as records management.

HUMAN RESOURCE AND LOGISTICS SUPPORT

Maryn provides high quality administrative support services to both government and private clients. Our company has demonstrated experience recruiting and retaining highly skilled professionals; through our quality-focused consulting, recruiting and hiring methods, we provide the right people at the right time. Maryn can also provide basic logistical and back-office program support to improve your organizations effectiveness.

TECHNOLOGY SOLUTIONS

Maryn understands the importance of technology in today's business environment. As such, the firm has developed a comprehensive suite of technology solutions that will enable our clients to succeed. Whether a large federal agency or a small privately owned firm, Maryn has scalable technology solutions to fit the specific needs of your organization.

Database Support – Maryn Team members are well-versed in database design and support. Maryn has capabilities in a number of database architectures including, MS SQL, MS Access, and Oracle.

Application Development – Maryn is well-versed in 'client specific' application development from consumer off-the-shelf (COTS) products.

Data Management – In today's business climate Data Management is a fundamental component of most businesses. Whether it is the development of databases, the warehousing of electronic records, or the creation of data management processes and policies, Maryn has the skills to ensure each client's long term success.

Process Automation – Our staff members are experienced in the development of processes and utilities that can yield improvements in both the speed and quality of our clients' deliverables/products.

Website Design – Maryn has demonstrated experience in the design, development, and implantation of client websites. Maryn conducts website development utilizing Microsoft's .NET framework.

MESSAGE FROM THE PRESIDENT

Maryn is dedicated to providing the best possible service to our customers. From project start to finish, Maryn consultants are 100% committed to our clients success. Our commitment to quality is demonstrated through Maryn's unique approach, which involves understanding our client's mission, carefully documenting requirements, solid communication, and project transparency. Maryn strives to approach each engagement independently and offer thoughtful and individually tailored solutions to our clients.

Our staff is comprised of highly trained managers, consultants, and associates with a unique understanding of the U.S. Department of Transportation (DOT). Over the last four years Maryn personnel have supported a wide range of DOT research projects and initiatives, including: analysis of first time DUI offender behavior, technologies utilized during law enforcement pursuits, automobile parts marking and anti-theft strategies, community based DUI behavior programs, and best practices for transporting children in emergency vehicles.

We understand that our clients have a wide range of choices when it comes to consultant support services. Consequently, Maryn greatly values its clients and works hard to ensure lasting and prosperous relationships.

We look forward to the opportunity to work with you.

Sincerely,

Greg Maryn
President
Maryn Consulting, Inc.
